JANUARY 2018 \$5 PETPRODUCTNEWS.COM

In conjunction with Cortina Pet Soul, **HUGGLE-HOUNDS**, a division of Allure Pet Products, offers Cortina dog harnesses and leashes. The harnesses are made with a flexible, eco-plastic body.

They are highly durable and easy to clean. They're nonallergenic, and their seamless construction eliminates rubbing or irritation, and their reflective finish improves nighttime visibility. The patented Fit&Go locking system, which allows closing and adjusting with a simple click, transforms the harness into a training tool, tightening when the dog pulls and loosening when the pulling stops. When the dog is set free, the harness can be adjusted with loops to ensure perfect wearability and free movement. The leashes come in coordinating designs. hugglehounds.com
